NOTES:

All but 1 team was picked up in the bus and we didn't get time to factor that into the scoring.
 Issues with teams getting to the right checkpoint but giving the wrong answer and so not being able to prove it were far less this year.
 Contours and country code were not included in the score because some teams were bussed passed these checkpoints by the leaders.
 Map symbols were included in the score because any teams only missed those checkpoints through their own bad navigation.
 Team 5 lost their Saturday route card and answer sheet and couldn't be bothered to write their team number or anything else on the Sunday route card.
 On the Sunday route cards a lot of teams **crossed out the correct information** we had given them and updated it to be wrong!
